

clean vehicle assistance program

What is a franchise dealership?

1. A franchise dealership is an auto seller that has **obtained a license** to sell new and used cars for major auto manufacturers, such as Nissan, Toyota and Honda.
2. Franchised dealerships are the only dealers that can sell you a **manufacturer certified pre-owned used car**.
3. Most franchise dealers have **extensive service facilities** and can perform warranty work on your certified pre-owned used car.
